

Practice C

1. Copy the congruent triangles shown at the right.

Then label the vertices of your triangles so that $\triangle YDB \cong \triangle SUR$. Identify all pairs of congruent corresponding angles and corresponding sides.

Complete this statement.

2. If $\triangle PMC \cong \triangle VTK$, then $\overline{PC} \cong \underline{\hspace{1cm}}$

3. If $\triangle LFA \cong \triangle VEN$, then $\angle E \cong \underline{\hspace{1cm}}$

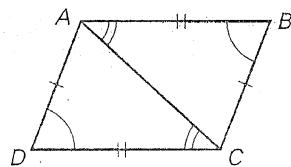

4. If $\triangle DCN \cong \triangle WBL$, then $\overline{BW} \cong \underline{\hspace{1cm}}$

5. If $\triangle ABD \cong \triangle CDB$, then $\triangle DAB \cong \underline{\hspace{1cm}}$

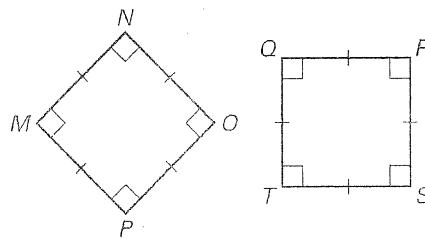

Identify any figures that can be proved congruent. Explain your reasoning.

For those that can be proved congruent, write a congruence statement.

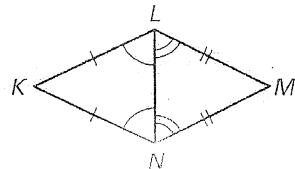

6.

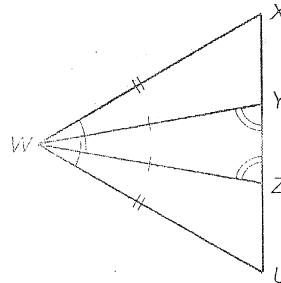

7.

8.

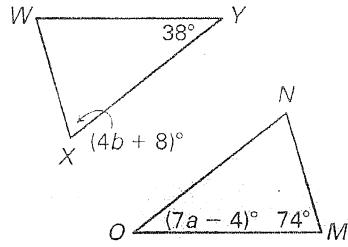

9.

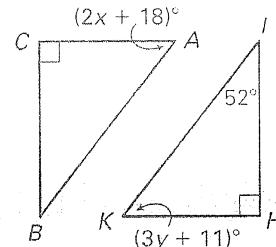

In Exercises 10 and 11, use the given information to find the indicated values.

10. Given $\triangle WXY \cong \triangle MNO$, find the values of a and b .

11. Given $\triangle CBA \cong \triangle HKI$, find the values of x and y .

12. Write a proof.

Given: $\overline{AD} \parallel \overline{BC}$, $\overline{AB} \parallel \overline{DC}$, $\overline{AD} \cong \overline{BC}$, $\overline{AB} \cong \overline{DC}$

Prove: $\triangle ABD \cong \triangle CDB$
